SPECIAL NOTICE

On the Perennial and Rock Garden Plants

The prices in the price list are on field dug plants. However, for Fall 1933, we have all of the listed varieties in heavy, strong, well established plants, potted up in 3 inch, 3½ inch and 4 inch pots. These are by far more desirable than field dug plants and more than pay for the slight additional cost by the sure way they take hold and grow. They are easier to handle and give better results.

The following scale of prices shows the slight increase over list price:

For potted plants add 20c to the per 10 rate and \$1.50 to the per 100 rate.

Example:

From Field		From Pots	
Per 10	Per 100	Per 10	Per 100
\$1.00	\$8.00	\$1.20	\$9.50

QUANTITY BUYERS, send us your lists for Special Letter Prices on **Perennials and Rock Garden Plants**.
